

Céile Care's Commitment to Quality End-of-Life Care and Resident Experience

At Céile Care, we are deeply committed to providing exemplary end-of-life care and continuously enhancing the experience of residents. We greatly appreciate the invaluable insights provided by the National Care Experience Programme.

Céile Care has actively engaged with CARU and encouraged participation in the CARU programme aimed at promoting best practices in end-of-life care, I'm thrilled to share that a significant portion of our members actively engage with this initiative. We recognise the importance of adhering to the highest standards in end-of-life care, and the CARU programme serves as an instrumental platform for us to achieve this goal.

The findings from the National End of Life Surveys serve as a cornerstone in our efforts to drive improvements in resident experience and quality across all our homes. By leveraging these insights, we can identify areas of strength and opportunities for enhancement, ultimately ensuring that residents receive the compassionate and dignified care they deserve during their end-of-life journey.

We remain steadfast in our commitment to delivering excellence in care, and we are grateful for the collaborative efforts of organizations like yours in advancing this shared mission.

Warm regards,
Noel Mulvihill
